

# GARBAGE ROLLS BIO COMPOST FOR ORGANIC WASTE

Denomination:  
**SACCOBELLO BIO COMPOST**  
Rolls with biodegradable and compostable handles  
Cod. **RTNU70x75P5**

the product meets the requirements of the standard  
**UNI EN 13432:2002**

## CHARACTERISTICS:

**Saccobello Bio Compost** is a biodegradable and compostable garbage bag for the collection of organic waste that meets the requirements of the standard **UNI EN 13432:2002**. Ultra resistant thanks to the triple layer of which it is composed, it has a maximum watertight effect thanks to the anti-drip bottom and is equipped with practical and comfortable sliding handles that allow easy closure and carrying. The bag is entirely made in Italy.
