

Saccobello

ElasticBag

GARBAGE BIN ROLLS

ULTRA RESISTANT - SCENTED

Denomination:

SACCOBELLO ELASTICBAG SCENTED

NU LDPE rolls with elastic handles

Cod. **RTNULDPR54X63P12R**

CHARACTERISTICS:

Saccobello ElasticBag is a bubble gum scented LDPE garbage bag for differentiated and undifferentiated waste collection bag suitable for under the sink. Ultra resistant thanks to the triple layer of which it is composed, the material has a maximum watertight effect thanks to the anti-drip bottom and is equipped with innovative elastic handles that give the bag the possibility to widen and to narrow once inserted in the bin preventing the bag once filled, from settling on the bottom. The handles allow easy closure and carrying. The bag is entirely made in Italy.

3 LAYER RESISTANCE

ANTI-DRIP BOTTOM

100% RECYCLABLE

DO NOT DISPERSE
IN THE ENVIRONMENT

TECHNICAL SPECIFICATIONS

Tolerances: $\pm 5\%$

Size (cm): **54x63**

Size (Litres): **35**

Usable height (cm): **63**

Product range: **Differentiated and undifferentiated waste collection bag**

Colour: **Pink**

Scent: **Bubble gum**

Bag thickness: **24,5 Micron**

Handle thickness: **87 Micron**

Handle colour: **Red**

Material: **LDPE + MLLDPE**

PACKAGING

Bags per roll: **12**

Roll weight (gr): **215**

Bag weight (gr): **17,5**

Bar code: **8033182190957**

**GARBAGE BIN ROLLS
ULTRA RESISTANT - SCENTED**

INSTRUCTIONS

- 1: Remove the label on the roll, with one hand hold the roll still and with the other hand tear the bag at the pre-cut point.
- 2: Hold the bag with both hands at both ends of the elastic handles and expand the bag by placing it in the bin.
- 3: Place the bag inside the bin so as to remain clamped at the mouth of the bin.
- 4: Once full, pull the bag out of the bin by pulling the sliding handles upwards.
- 5: Make the knot on the handles so as to close the bag.
- 6: After being sure the bag is closed, take the bag by the inside of the handles so that it can be removed from the bin.
